EDUCATION

2020 - 2024

VNUHCM - University of Science

Bachelor of Information Systems

TECHNICAL SKILLS

Frontend

- HTML, CSS
- JavaScript (ES6+)
- ReactJS
- Tailwind CSS

I'm always ready to learn new technologies.

Backend

- Flask
- MongoDB
- MySQL
- Microsoft SQL Server

API Development

RESTful API

Tools

Git, GitHub, Figma

Workflow

Agile methodology (Scrum)

Language

English

- TOEIC 785 (test on Study4)
- Reading technical documentation and basic communication

SOFT SKILLS

- Teamwork
- Problem solving
- Communication in English and Vietnamese
- Willingness to learn

CERTIFICATIONS

- JavaScript Algorithms and Data Structures - freeCodeCamp *View Detail*
- TOEIC 785 (test on Study4) *View Detail*

PROFILE

I am a recent graduate majoring in Information Systems at VNUHCM - University of Science, with strong foundational knowledge in software development, programming languages, and system analysis. In the next six months, I aim to become a Junior Developer, work full-time and enhance my technical and teamwork skills in a professional environment. Within 5 years, I aim to become a Senior Developer who can build reliable IT solutions and support junior teammates. In 6 to 8 years, I aim to become a Project Manager, leading teams and delivering successful projects.

PROJECTS

Personal Portfolio Website   *Demo*

ReactJS, Tailwind CSS   15/06/2025 - 30/06/2025

- **Description:** A personal portfolio website built to showcase my background, technical skills, and featured projects in a clean and responsive layout.
- **Position:** Frontend Developer.
- **Responsibilities:**
  - Designed and developed a fully responsive web interface using HTML, CSS, JavaScript (ReactJS), and Tailwind CSS.
  - Implemented dynamic project sections to display portfolio items with filter and detail views.
  - Created smooth navigation and scroll animations for a better user experience.
  - Integrated a contact form with email handling and reCAPTCHA.
  - Deployed the website using Vercel for public access.

Health Insurance   *GitHub*

ReactJS, Tailwind CSS, MongoDB, Java   01/10/2023 - 01/01/2024

- **Description:** The project aims to develop a digital health insurance system, focusing on improving and automating the registration and claim processing for customers.
- **Team size:** 5
- **Position:** Frontend Developer.
- **Responsibilities:**
  - Built frontend pages including Login, Signup, Profile, Claims, Registrations, Payment, Sign Contract, Navigation Bar, and Notifications. Made API requests to get and update data (did not handle backend or authentication logic).
  - Participated in a team that followed the Agile (Scrum) methodology.

E-Ticket Management   *GitHub*

ReactJS, Tailwind CSS, MySQL, Flask   01/03/2024 - 01/07/2024

- **Description:** The project aims to develop an online event ticketing platform that allows users to easily purchase tickets and manage events. Implemented key features such as user authentication, event management, ticket management, and promotion management.
- **Team size:** 4
- **Position:** Frontend Developer, Backend Developer and Team Leader.
- **Responsibilities:**
  - Analyzed business requirements for the Ticketing Service.
  - Designed the database for the Ticketing Service.
  - Developed RESTful APIs for the Ticketing Service, including ticket ordering, ticket management.
  - Built the user interface for Ticketing Service, including ticket display, ticket selection, ticket management.
  - Led the team: divided tasks among members, managed deadlines, and organized regular team meetings to ensure progress.

ACTIVITIES

- Deputy Team Leader (2022 - 2023)
- Member of The Board of Directing (2021 - 2022)

at Student's Volunteer Team, Faculty of Information Technology, VNUHCM - University of Science

Led and organized multiple volunteer campaigns (30–150 volunteers), including Green University Village, Back to Rural Areas (2022, 2023), and Sharing Spring. Planned internal activities to strengthen team connection and collaboration.

- Math and English Tutor (10/2024 - 05/2025)
